Description

2026 Scanvogn 240 - 2in1 Toilet Trailer with macerator
Portable sanitation. Event-ready.

The Scanvogn toilet trailer is the alternative to hiring portaloos — a permanent-quality sanitation facility that tows to site and operates independently. Used by event operators, construction sites, mining camps, and emergency services where fixed sanitation is unavailable. Water flush, handwash, and waste containment in a single towable unit.

Water flush. Not chemical.
Mains or tank-supplied water flush system. Proper handwash facilities. The experience is closer to a permanent facility than a portable toilet — that matters for events where user experience reflects on the operator.

Hot-dip galvanised chassis. LED lighting.
Repeated deployment and outdoor storage in all weathers. Built to last across years of hire and event use.

Danish-designed. RVSA 2023 compliant. Ready to register.
Talk to us about water supply options and servicing requirements for your application.
