## Description

2 year bumper to bumper warranty 4 year/500,000km driveline warranty 12 months telematics access Mercedes-Benz Atego Rigid range impresses not only with a comfortable driver workplace, but also with precisely coordinated, job-matched vehicle configurations, impressive fuel savings compared with its predecessor, efficient technology and attractive service offers which increases the overall effectiveness further still. Reliability. Operators who earn their money in road-bound goods transport need reliability. In other words: trucks they can count on. With the Atego Rigid range we are able to offer you a vehicle incorporating the rich fund of experience and expertise acquired over more than 100 years of German engineering. Equipped with leading Mercedes-Benz vehicle technology and components tested under the toughest conditions. This applies to engines, gear shifts, transmissions and drive axles as well as frames, chassis, suspension and cabs. Everything is perfectly coordinated, in order to meet all requirements reliably, even in extreme conditions. Efficiency. Mercedes-Benz trucks stand for particularly high economic efficiency worldwide. The Atego Rigid range also meets the highest standards of efficiency, based first and foremost on its particularly low fuel consumption. Low wear and a higher resale value are additional merits contributing to its high overall economic efficiency. Numerous innovative technical measures were implemented in the course of developing these vehicles, resulting in higher performance engines with lower fuel consumption, a powertrain which enables a particularly economical driving style, and an aerodynamic design honed down to the finest details in the interest of fuel efficiency. Versatility. Distribution transportation has its very own set of rules. This is why we have created the Atego Rigid range, for distribution transportation from 12 t to ensure that you are ideally placed to meet the challenges facing this sector. Our Atego Rigid range of models mean you have the perfect vehicle to meet the demands associated with distribution transport, general freight and other high volume transport requirements 100 mm Mainrunners , 75mm x 50mm rhs Cross members , 100mm rsj coaming rails , raised 18mm on sides with pipe rope rails on sides and steps front and rear incorporated 5mm Steel Checkerplate Floor, sweep out rear 100 mm x 50 mm headboard 50mm over height cab with protection panel 800mm high and tie rails above 6 x load binders in track under body with winch bar in holder container pins in floor tba position to suit 20ft container. gate pockets in side coamings and rear (no gates). camara hole in no plate
