## Description

Freighter by Freighter Group ST3 Tri Axle Drop Deck Hay Spec Built to Order Manufactured in Ballarat, Victoria, Freighter trailers are built using locally sourced high tensile Australian steel, advanced TRUMPF laser cutting technology and Valk Welding robotic welding systems. The result is consistent structural integrity, precise fabrication and long term durability. Freighter has been building trailers in Australia since 1946. Operators across South Australia and the Northern Territory choose them because they stay straight, handle tough agricultural work and retain strong resale value. Purpose Built for Hay Cartage This ST3 Drop Deck has been configured specifically for bale work in SA and NT conditions. Overall Length 13,730mm Tri Axle configuration 435mm rear drop section 1,270mm skid plate height 1,430mm king pin position The drop deck layout allows:
 

- 3 high on the top deck
- 4 high on the rear drop deck

 Estimated capacity up to 41 large square bales depending on bale dimensions and stacking method. There is no true standard hay bale size. Bale height and density vary. The advantage of a drop deck is improved stacking flexibility while keeping overall loaded height and centre of gravity under control. A straight deck cannot achieve the same stack configuration without pushing height. Commonly Selected Hay Specification
 

- Raised 100mm coaming
- 3mm steel chequer plate floor
- Full length roadside winch track
- Recessed and sliding winches with extended straps
- Front and rear load racks
- Road Train bracket with air and electrical
- Hendrickson HT250 air suspension
- Fuwa K Hitch drum brake axles
- Knorr Bremse EBS
- Firestone tyres with aluminium wheels
- Right Weigh digital load gauge
- 2 Pak paint finish

 This specification is commonly chosen for hay cartage, however deck heights, winch layouts, suspension packages and Road Train or B Double configurations can be tailored to suit your prime mover and operating requirements. Other Freighter Semi Models Available
 

- S Series Flat Deck
- SL Lead Trailer
- SD Drop Deck
- SDL Drop Deck Lead
- SE Extendable Flat Top

 Freighter Group also manufactures Lusty EMS bulk tippers, Hamelex White rigid bodies and Trout River live bottom trailers. We are also authorised suppliers of AZMEB side tippers and complete bulk haulage combinations. For SA and NT operators, sales, parts and service support are available locally through our South Australian dealership in , including workshop facilities, EBS diagnostics and national parts backing. This is not a generic flat top with straps added. It is a properly engineered Drop Deck suited to real hay work. Built to order. Production allocations available. If you are moving hay this season or planning ahead, contact our South Australian team to discuss your bale size, stacking preference and combination setup.

## Product Details

<b>Type</b>	Dealer New
<b>Year</b>	2026
<b>Make</b>	Freighter
<b>Model</b>	St3
<b>Registration Date</b>	N/A

## Further Details
