Description

2027 Trout River TR33SCT Live Bottom – Stock Build Slot Available Price is subject to change depending on build, options and accessories. Contact us to get a tailored quote. Secure a new 2026 Trout River TR33SCT Live Bottom by Freighter Group. This unit is in a factory stock build slot, with colour choice and limited spec changes still available before final lock in. If you're carting hot mix, quarry or paving material and want a safer, more controlled way to unload, this is it. Unlike a conventional tipper, the Trout River Live Bottom unloads via an internal conveyor belt system. No tipping, no raised body, no overhead clearance issues. Perfect for low structures, urban sites and uneven ground where stability matters. Why Trout River stands out ▪ Up to 30m³ capacity to waterline ▪ Heat rated belt suited to asphalt work ▪ Insulated side walls ▪ Electric retractable tarp ▪ WABCO EBS with SmartBoard ▪ 2 camera system ▪ Emergency stops both sides ▪ Tailgate lock indicator ▪ Belt in motion indicator ▪ Rear work lights ▪ Toolbox ▪ Alloy wheels ▪ Hendrickson HT air bag suspension ▪ FUWA parallel bearing drum brake axles Built in Australia for Australian conditions and backed by Freighter Group's national sales, parts and service support network. Trout River units are known for controlled discharge, site safety and versatility. Ideal for asphalt crews, civil contractors and quarry operators wanting a safer alternative to tipping. Beyond this stock unit, we can tailor a build to suit your exact task. Options include different insulation packages, tarp systems, side and rear attachments, extra cameras and lighting, weight gauges, water tanks, underrun protection, axle and suspension choices and PBS configurations. We also supply and fit Trout River rigid bodies, including full hydraulic and electrical integration to suit your truck and application. If you're serious about moving bulk material safely and efficiently, this is the smart choice. Tell me: ▪ What product you're carting ▪ Where it's working ▪ Single or road train ▪ If rigid, your truck make and chassis details Lock in this build slot or design your own. Pricing subject to final specification at order. Images for illustration only.
