Description

2026 Variant 1316 F3 1350 kg Combi Trailer

Box trailer. Machine ramp. One trailer that does both.

Keep the sides up for a secure enclosed box. Drop the full-width integrated ramp and load wheeled machinery — ride-on mowers, ATVs, quad bikes, motor bikes — up to 1,041 kg payload. Tows behind most utes and SUVs without a brake controller.

Mechanical overrun brakes — self-regulating, no electric brake controller required.

Hot-dip galvanised steel chassis.

The protection is built into every seam and weld — not painted over the surface after the fact. Corrosion-resistant in coastal or high-moisture environments.

Danish-engineered. RVSA 2023 compliant. Ready to register.
