Description

IVECO's Daily van and cab chassis range brings added productivity and efficiency to just about every application. Whether operating in trade industries, pick-up and delivery or more specialised sectors, there's likely to be a Daily to suit. On offer are vans with volume capacities spanning from 12m³ to a market-leading 19.6m³ and GVMs beginning with passenger car licence 4.2t to 4.495t, and up to a market-leading 7.0t. Cab chassis choice is also extensive, with multiple wheelbase options of both single and dual cab models available beginning from 4.495t GVM through to a light rigid licence 7.2t and offering payloads of up to 4.7t. Powering the range are premium Euro 6 engines with outputs ranging from 132kW / 430Nm to a market-leading 155kW and 470Nm, which are coupled to the industry leading H-Matic 8-speed full automatic. And if the application demands the ability to cover extremely rough terrain, Daily also offers single and dual cab 4x4 variants with a 7.0t GVM and multiple wheelbase options, making the vehicles perfect for forestry, light tanker, off-road recovery and servicing applications, as well as mining and exploration work.
