## Description

2026 Freighter T-Liner B Trailer – Ready Range Build Slot Available Secure a 2026 Freighter T-Liner B Trailer as part of Freighter Group's pre-engineered Ready Range program. This configuration is engineered for palletised freight and linehaul applications across standard Australian road networks. Built using proven high-volume specifications to reduce lead times while maintaining full Freighter structural integrity and compliance. Freighter has been manufacturing trailers in Australia since 1946. Built at our Ballarat facility using Australian steel and supported by investment into advanced laser cutting, precision fabrication and robotic welding, the result is consistent build quality and long-term durability. Standard Ready Range Specification ■ 13,640mm overall length ■ 4,300mm overall height ■ 100mm raised coaming ■ 3mm steel chequer plate floor ■ Aluminium roof ■ Bevelled bow front ■ FRP rear doors with anti-rack hardware ■ Welded strap curtains ■ Full length roadside winch track ■ Recessed and sliding winches ■ 1800mm Duragal gates with modular carrier ■ Stainless steel toolboxes x2 ■ 60L polished aluminium water tank ■ Side steps both sides Suspension & Running Gear ■ Tri axle – Lead / Road Train configuration ■ Hendrickson HT230 airbag suspension – 381mm ride height ■ Fuwa K Hitch 10/285 parallel bearing drum brake axles ■ 420 x 180 brakes ■ Knorr Bremse EBS ■ Firestone 11R22.5 tyres ■ Lightweight alloy wheels ■ Aluminium rear panel guards ■ Right Weigh external digital load gauge with Bluetooth Electrical & Towing ■ Road Train wiring loom ■ Hella LED lighting package ■ Rear tow bracket with air & electrical provision ■ Ringfeder coupling optional Why Operators Choose T-Liner ■ Proven linehaul platform ■ Strong coaming and floor structure ■ Consistent build quality from precision manufacturing ■ Designed for fleet durability and resale value ■ Backed by Freighter Group's national parts and service network Customisation Available The Freighter range remains available to customisation, common customer changes include: ■ Ringfeder towing coupling ■ Disc brake upgrade ■ Additional load restraint solutions ■ PBS configurations ■ Fleet-specific layout changes If you're building or updating your B-Double combination, this is a proven Australian-built solution designed for long-term performance. To secure production timing or tailor the specification, please advise us of the following: ■ Prime mover configuration ■ Intended combination type ■ Freight profile ■ Operating regions Production availability subject to build allocation. Pricing subject to final specification at order.
