### Description

Semco Group is a full-service heavy equipment sale and service organisation with locations in Sydney, Melbourne, Brisbane, Newcastle, Queanbeyan and Goulburn. Handy with high performance Suitable for excavators between 9 to 20 Tonne, specially designed for medium sized environments where applications require high-level performance. Ideal for use before or after crushing, the MB-S14 S3 screening bucket will reduce crushing time up to 60%. It also allows the screening of natural material (quarry residues, dry soil, and river stone) of any kind, making it convenient for onsite processing. A must in reducing volumes and optimising the size of materials for specific uses. The screening buckets MB are equipped with baskets formed by interchangeable modular panels, available with holes of different sizes based on requirements For more information contact SATC 1800 685 525
