True all in one machine Diggas heavy duty 72 Rotary Axe is the ultimate attachment for clearing & shredding thick bush & scrub. Working in conjunction with the heavy duty push bar, the front hood opens up exposing the blades past the guards, enabling close up axe-like cuts to remove trees up to 7 (180mm) in diameter. For the ultimate in clearing, carbide teeth have been added to the spinning disc to effectively remove stumps and create a clear path. The Rotary Axe boasts a world leading design as well as quality construction for increased productivity, reliability, and ease of maintenance. 72 Cutting width with alternating bevel blade design - providing a deep penetrating, axe-like, self-clearing cut Blades are made of 3/4 thick high grade steel with a reversible design for added blade life Steel 'clean deck' design - Helps keep the deck clear of debris. Easier to clean and maintain Heavy duty construction allows for lower centre of gravity and better stability on hillsides Highly visible pressure gauge - Prevents excessive stalling which would otherwise cause overheating, providing feedback to the operator to help maintain peak performance Ideal Use A Rotary Axe is used for vegetation clearing, preparing sites for construction projects, clearing trails, scrub and undergrowth as well as shredding branches and saplings. it is ideal for cleaning up fire breaks, clearing orchards, lease reclamations, or fence line maintenance.
