Most of our plant and machinery comes direct from Government departments, the Australia Defence Force, local councils, fleet & leasing companies, bank & finance matters. All equipment can be delivered Australia wide. Finance is available on all our equipment from 4.5%. DWL Machinery is also an attachment dealer and supplies all Australian delivered accessories and attachments for excavators and skid steer loaders. For any questions please phone Jacob from DWL Machinery. _____ -Listing is for a 36" brand new Digga Magnum Mulcher to suit an excavator up to approx 12t -Mulcher with reversible carbide teeth -Comes complete with standard hitch, hoses and couplers -Mulchers available for other size excavators message us for a quote -We stock the complete Digga range of attachments and mulchers -106 to 155lpm flow required Shred vegetation & trees with ease Digga's Magnum mulcher provides high flow skid steer loaders and Excavators (up to 20 tonnes) with the versatility of grinding small and large material, trees or brush, even above ground stumps with just one operator. Debris can be mulched back into the soil for faster decomposition. Magnum is the perfect value-adding attachment for clearing firebreaks, land, maintenance of park or forestry trails, vegetation management, and re-mediation. Adjustable bent axis motor Adjust hydraulic motor flow to match output of host machine. For best results, tailor RPM to the application (2000 RPM max). Increase production by reducing recovery time. Unique drive belt Heavy duty purpose-built positive traction belt eliminates slippage to increase productivity and reduce operating / maintenane costs. Many competitors use standard car engine belts to drive their drum. Patented tooth design Split tooth design channels cut material through the centre of the teeth providing relief, consistent cut material, and reduced motor drag. Reversible tooth allows quick field replacement without down-time. Heavy duty rotor Digga's Magnum mulcher features 3/4 inch drum wall thickness and five reinforcing stabilisers to reduce rotor flex while a through shaft design adds to its rigidity. This results in increased bearing life. Innovative shaft & bearing design 'Push type adapter sleeve traps the bearing against a shoulder on the rotor shaft to prevent the rotor from floating axially. Guaranteed rotor shaft positive grip able to withstand heavy shock load / unintentional axial load. Design also prevents dirt from reaching the bearings. 6 Reasons to buy -Innovative shaft and bearing design -Adjustable bent axis motor -Integrated hydraulic oil -Heavy duty rotor design -Unique drive belt minimises slippage -Patented reversible tooth design To see the Digga Magnum mulcher in action copy and paste the following link into your browser: https://www.youtube.com/watch?v=19D98xq-baU https://www.youtube.com/watch?v=T-Z4UgX7WZ0 _____ Pick up is in Bringelly NSW 2179, we can deliver Australia wide.
