Description

Interstate Trailers - 3500 KG Plant Trailer 3.5 TON suit Bobcats & Excavators Wholesale Price ---- Only $9672+GST Heavy Duty C Channel, 1860 x 3980 mm Floor space, Heavy Duty ramps, 4x4 Tyres 100% Australian manufactured, ONLY Southern Tool + Equipment. Road tested and Contractor approved. We use heavy duty industrial grade Australian manufactured C channel in the V tow bar and chassis of the main structural frame of the trailers. The specific reason for this is the C Channel has the strength and flexibility required to handle the payload and demands of a heavy duty Plant trailer. Trailers built out of box steel are much cheaper to manufacture and simple cannot handle the tight turning circles and will snap off at the draw bar where it joins to the trailer. If you were buying a boat trailer where weight and tight turning circles were not a issue then of course box steel is a ideal low cost and light and easy alternative.. Don't risk your trailers V tow bar snapping off travelling at 100km down the Highway with your machine on the back, the consequences would be disastrous for not only you as the owner by possible others involved in such a event. Interstate Trailers Standard features: . ATM--------3500 KG [Max Total of Trailer + Pay Load] . Tare-------1080 KG [Empty Trailer] . Payload----2420 KG [What you can carry] . Width----------2420 mm . Length----------5900 mm . Height----------2500 mm . Floor Area----------1860 mm x 3980 mm . Draw bar----------1900 mm . Heavy Duty ramps---1750 mm each . Heavy Duty C Channel for flexibility . 50mm coupler as per Australian standards . Manual wind down legs will at the front to support the unloaded uncoupled trailer . Two rear manual drop down legs . Four wheel 10" brake system in accordance with transport department recommendations . LED lights sets . Deluxe colour pack - prime red and two coats of hammer tone . New Factory 8 ply 4x4 Tyre's with new white powder coat rims * Registration fees and all on road costs are extra
