Description

Forestry mulcher for excavators or special machines, with fixed tooth rotor (UML) or with swinging hammers rotor (FML) having a weight between from 6 to 10 t. Mulcher especially designed to use with rail vehicles or other special means, developed to meet the needs of professionals who must maintain areas along the embankments of the railway lines. The reduced weight and the adopted design solutions, such as the special particular light frame and the oversized rotor which is equipped with fixed hammers, allow the operator to grind twigs, branches, bushes and trees up to about 12 cm/5 in diameter, even in the presence of stones which are often present at the sides of the tracks and hardly visible during machining. The standard equipment includes: -enclosed machine body -belt transmission -Hydraulic piston motor 63cc with relief and anticavitation valve (29 40 GPM) -hydraulic rear hood -welded counter blade -motor integrated into the frame Available on demand: multiple tooth options (UML/HY/RW), customized attachment bracket, blank attachment plate. DWL Machinery is a liquidation and clearance company who sell direct to the public. Most of our plant and machinery comes direct from Government departments, the Australia Defence Force, local councils, fleet & leasing companies, bank & finance matters. We are a bucket and attachment dealer for excavators and skid steers including your favourite brands like FAE, Digga, Norm engineering, Sureweld, Auger Torque and ABS. -Australia wide delivery and International shipping simply send us your location for a quote. Pick up is in Bringelly NSW Australia 2179 or Dandenong South VIC 3175 -Finance is available on all of our equipment -We accept trade-in's, email us photos and details of the machines for valuations. -Accepted payment methods: Internet transfer, cheque, cash, Paypal or credit card. Please note Paypal or credit card payments incur a 2% surcharge. Feel free to contact Jacob from DWL Machinery for any further questions about machinery, finance, trade-ins attachments and delivery.
