Description

Forestry mulcher for pto tractors with fixed tooth bite limiter rotor from 50 to 100 hp. The PaTriziO is a new mulcher for mulching branches and bushes up to 15 cm in diameter and particularly suited for agricultural use (for example for pruning in orchards and vineyards). The innovative rotor with Bite Limiter technology is equipped with special steel profiles that limit the depth the teeth action, reducing the demand for power and guaranteeing exceptional performance, even with low-powered tractors. It has a heat-treated forged steel tooth holder, together with Type E reversible blades. PaTriziO is equipped with adjustable and interchangeable screwed skids, two rows of counter blades that guarantee fine and uniform mulching and a hydraulic hood with built-in cylinder, protected by the machine body. The wide range of working widths makes PaTriziO especially versatile and suitable for the most diverse jobs. Standard equipment: -Hydraulic rear hood -dual row protection chains -transmission with belts -gearbox with freewheel -PTO shaft with cam clutch -bolted-on rotor shafts (in forged steel) -welded steel counter-blades -adjustable skids -Bite Limiter rotor Options: frontal attachment, multiple tooth options, hydraulic top link, mechanic push frame. DWL Machinery is a liquidation and clearance company who sell direct to the public.
